

COURSE TITLE:

ISDH INFECTION CONTROL IN DENTAL FACILITIES

COURSE INFORMATION:

This course is free and will provide oral health professionals with general guidelines, laws, and rules and regulations as they pertain to Infection Control in dental facilities in Indiana.

Dentists and dental hygienists in Indiana are eligible to receive 3 hours of continuing education (CE) credit from the Indiana State Department of Health for satisfactorily completing this course.

Other health professionals may also be eligible to receive credit but will need to check with their Licensing Agency to ensure these credits are approved and accepted by that agency.

COURSE ID #'s:

Module 1 – 1064396

Module 2 – 1064415

Module 3 – 1064416

Module 4 – 1064417

Module 5 – 1064418

Search by Course Title keywords or Course ID. Select the "Registration" tab then click the "Launch" button. Once you register for this course the module will be automatically be added to your "My Learning" on the Home page Dashboard.

- If you search by Course Title you will have to select the module that you want in order to access the Course Details page.
- If you search by Course ID you will automatically be taken to the Course Details page.
- On the Course Details page click on the **Registration tab** and then click on the **Launch button**.

If you are having technical difficulties, click on the "**Help**" tab in the IN.TRAIN navigation bar, then click "**Test Your Environment**" on the left hand menu. Follow the instructions on the resulting page.

You must complete all five modules to receive credit for the course.

You will be asked to take an evaluation (required) at the end of each of each module.
